

# Keith & Kelly

## Thank you!

We are glad to have this chance to introduce ourselves. We admire your courage in making this choice and we know you want this child's life to be filled with opportunities, love, joy and support. That's just what we want too!

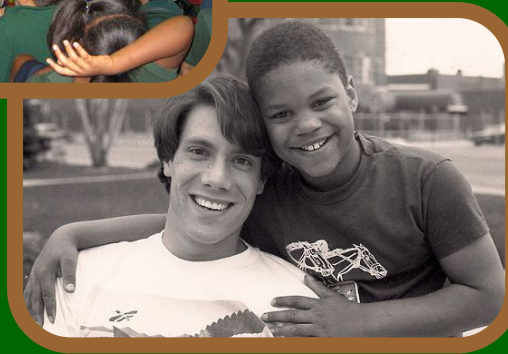

## Teaching Children

Years ago, when we started our careers as teachers, we learned how satisfying it feels to help children learn and grow into strong, confident and capable individuals. Now we work for an education research center. We specialize in teaching young children to read and write. Keith works full-time and Kelly works part-time from home.

## About Us

We have been together since 2003 and have been married for 5 wonderful years. We are excited to bring a child into our life with Kelly's daughter from her first marriage.

## We believe in the power of a good education.

Our own educations have given us great opportunities and choices. Kelly attended the University of Texas. Keith went to a small college in Massachusetts and earned one master's degree from the University of Colorado and another from Harvard University.

## Family Matters Most

Kelly grew up in south Texas with her two younger brothers. Her parents now live a few hours away and are actively involved in our lives. We are also close to Kelly's brothers. One lives with his wife and two children near Kelly's parents, and the other is in Texas too, completing his training to become a pharmacist. And, he's getting married later this year! Keith comes from a large family with 4 brothers, a sister and two stepsisters. His family is spread across the country and the world. We love to have them visit and to go visit them.

# K & K

## We Love Our Friends

Our friends are also like family to us. We are blessed to have an amazing group of people who are part of our lives. We love to gather for food, movies or fun and to celebrate holidays and birthdays together. We also stay close with our friends in Colorado (where Keith used to live). We visit whenever we can for hiking trips, skiing, camping and horseback riding.

## There's Always Time for Fun!

We are an active family and we love to play. We take walks through the neighborhood and go to nearby parks, ride bikes, play catch and frisbee. We enjoy quieter times at home together too - reading books, playing games, swinging on the backyard swing set, doing puzzles, cooking, knitting and listening to music.
