

Yoshio and Rebecca

A Little about us: Our story started in 1999. We are high school sweet hearts of 15 years. We are still just as happy and in love as when we first meet. We have seen each other through many obstacles, and having a baby was a big one. We decided that adoption was the right step for us to have a family. We are so excited to take this step together with our friends and families support. We thought about this for many years, and decided that having a family and loving a child did not mean that the child had to come from us. That we could love and give a wonderful life to any child that came into our home.

We are a simple fun couple. We love to dance, watch movies, and travel. We also love riding our bikes and listening to music together. Our relationship is based on trust and love.

It may sound cliché, but we really are best friends. The bond we have is unbreakable, and we cannot wait to share this with a child and expand our family.

Rebecca by Yoshio: Becca will be a wonderful mother. She is very caring and nurturing. She is generous and affectionate. You will never find her angry and is loved by many people.

She is a Registered Nurse in the Emergency Room. She is a charge nurse and preceptor to new graduates.

Yoshio by Rebecca: He is a very kind and loving man. He works for the City water department and loves what he does.

He is absolutely hysterical. I laugh with him all day, every day. I could not have asked for a better person to spend my life with.

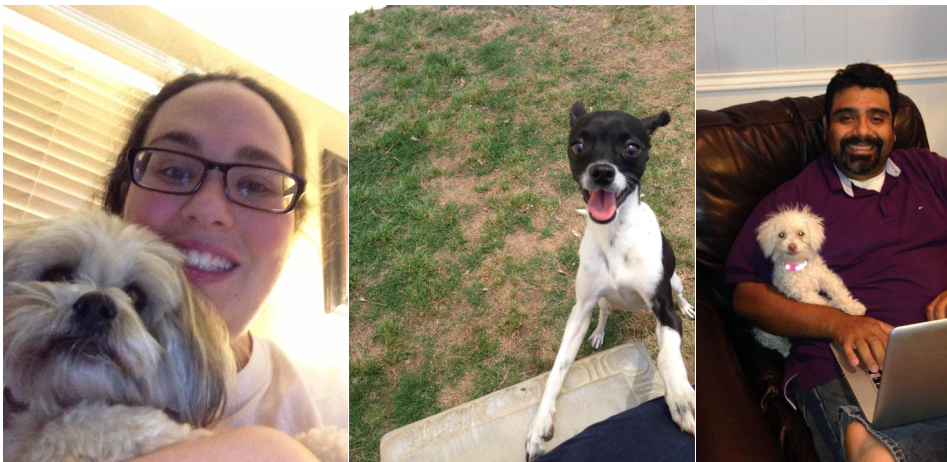

He loves to ride his bicycle, play with our three adorable dogs, and enjoys drawing. He is a great Uncle to our niece and nephew. They absolutely adore him.

We live in a three bedroom, two bath home in an older established neighborhood. We are walking distance to the local elementary school. We have a very large back yard with lots of space to play and trees.

We are big animals lovers. We love taking our dogs to the dog park, and doing evening walks around our neighborhood. Our dogs are a big part of our life.

Thank you so much for taking the time to learn more about us. We promise that we will provide a stable and loving home. We will always put the child first, and support their dreams in any way possible. We do hope you will consider us in your big decision and help us fulfill our dream.
